

Tourism

We are fortunate to live in a beautiful and historic village. We could capitalise on that by improving our tourism offering. A marked walking route which took in the pubs and shops could help the profitability of those facilities, which benefits us all. We could also direct parking to where we want it as opposed to grass verges and gateways around the Parish.

Business

Local employment is vital to keep our young people in the Parish. It also plays a part in traffic issues. There is a display today by Harwoods a local employer. We want to hear your views on their proposals.

If you work from home we would like to hear what challenges that brings. Do you need a shared office space in the village? Do connectivity issues blight your ability to work/expand?

Agriculture

Our Parish is surrounded by agricultural/horticultural/viticultural activities.

Representatives from Nyetimber Vineyards are here today. We want to hear your views about their plans for the future.

We can protect land in the Plan and try to keep it in production for the future.
